Seahorse Scientific Services donates 25 ECG recorders to Doctors WorldWide, a charity that is dedicated to the provision of comprehensive international medical relief

Seahorse Scientific Services Ltd (S3) is a UK based company that specialises in the provision of expert clinical and regulatory consulting, and core laboratory data services including centralised ECG analysis for clinical trials.

In accordance to the S3 Corporate and Social Responsibility Policy, that assures a binding commitment towards the highest level of business ethics and continued contributions to key humanitarian and social economic developments around the world, Seahorse has donated 25 fully qualified and calibrated ECG devices to Doctors Worldwide.

Doctors Worldwide will utilise these devices across various primary and secondary projects within Africa and Asia.

About S3

Founded in 2007, Seahorse Scientific Services is a privately owned, academically centred laboratory data services and Regulatory Support Company specialising in the provision of centralised reading and data capture services for early and late stage clinical development. S3 was created to offer consultative services to the Pharmaceutical, Biotechnology and Device companies to investigate and rapidly determine the potential of new and existing products.
