

Seahorse Laboratories Ltd announces expansion of customer sales, medical distribution and analytical services after receiving MHRA GDP license

London, United Kingdom, 6 June 2014 - Seahorse Laboratories Ltd, a leading provider of core laboratory services, today announced that it has been granted a wholesale distribution license and will now expand its business portfolio to include direct customer sales, product distribution and advanced analytical laboratory services.

The license was awarded by the Inspection, Enforcement & Standards Division of the MHRA (Medical Health Products Regulatory Agency) after a successful site audit and inspection. Seahorse Laboratories Ltd's wholesale distribution authorisation number is WDA(H) 43007.

“ This achievement represents a major milestone in the growth of our company and furthermore assures our customers that they have chosen the right strategic partner to collaborate with” says Professor Art Tucker, Managing Director of Seahorse Laboratories Ltd. “This license demonstrates the depth and robustness of our business governance practices, our commercial and operating infrastructure, our quality management system and our patient safety controls ”.
